DEPARTMENT OF PANCHKARMA

Introduction : Panchakarma are bio-purification procedures which cleanses vitiated doshas from our body and rejuvenates our body & mind. It is very much beneficial for overall health, wellness and self-healing. Thus, it shows a promotive, preventive as well as curative effect on body and mind. Even a healthy person can do Panchakarma as per season in order to maintain his proper health. The five fold detoxification comprises of vamana (therapeutic emesis), virechana (therapeutic purgation), basti (therapeutic enema), raktamokshana (therapeutic bloodletting) and nasya (nasal instillation of drugs). A few other therapies are also done along with these therapies for better relaxation and rejuvenation like Shirodhara, Shirobasti, Pizhichil, Udvartanam, Patra pinda swedana , Sashtikshalipinda sweda, Akshitarpana, etc.
